

STOP THE SPREAD OF INFECTION!

Between 5% and 20% of Americans get the flu and miss 70 million workdays, costing between \$3 billion and \$12 billion a year in lost production. It is important to be prepared and take the required steps to clean and disinfect properly with an effective infection control program, including the right products combined with training and management tools. Whether it's a common cold, Norovirus, or influenza, Spartan offers a program to keep building residents safe and healthy.

INFECTION TRANSMISSION

Direct contact with blood and/or bodily fluids

Direct contact with a contaminated surface

Exposure to airborne infectious agents

Today's cleaning professionals are on the front lines of helping prevent the spread of infection. Rely on Spartan Chemical to provide targeted solutions for infection control. Hand washing and sanitizing solutions are your first line of defense against the spread of viruses. Effective cleaners and disinfectants break the cycle of infection on high-touch surfaces. Training and education tools ensure safety, professionalism, and compliance.

Your world is busy enough. Count on Spartan Chemical for products and services that make infection control simple.

INFECTION PREVENTION

Hand hygiene

Clean and disinfect
