

HealthCheck™

long-term care

When the ones we love require extra care, their comfort and safety are the top priority when selecting a provider. At Spartan Chemical, we make clean simple, so long-term care facilities can provide safe, healthy, home-like accommodations throughout the continuum of care. With proven programs for general cleaning, laundry linen management, and food service sanitation, Spartan and our distributor partners can customize and implement the program that ensures the highest standard of clean—because there is no second chance when it comes to the health and well-being of our loved ones.

CLEAN AND HEALTHY SPACES

The U.S. Department of Health has scientifically proven that rigorous and regular cleaning is associated with major decreases in harmful pathogens that lead to illness. Therefore, a documented cleaning program is critical not only for appearance, but to ensure a healthy environment for residents, visitors, and staff.

ASSESS YOUR NEEDS

Your Spartan team will work with you to establish and document your cleaning and sanitation goals.

CREATE YOUR PROGRAM

Your Spartan team will then put together a complete program that focuses on cleaning and disinfecting your entire facility.

TRAIN YOUR STAFF

Training of your environmental services / infection prevention staff is paramount to the success of the program. Your Spartan team will implement a CleanCheck® training program to fit your operations inclusive of cleaning for health, laundry/linen management, and food service cleaning and sanitation.

TRACK/VERIFY PROGRESS AND IDENTIFY AREAS OF CONCERN

Using the quality assurance tool in CompuClean, your EVS specialists/supervisors will be able to measure, validate, document, and manage your cleaning effectiveness, ensuring a safe environment for residents, visitors, and staff.
